

REMARKS

Reconsideration and allowance are respectfully requested.

Applicant appreciates the Interview courteously granted by Examiner Huy Mai to James Wray and Meera Narasimhan. Attached hereto is a copy of the PCT International Search Report which was also given to the Examiner at the Interview.

The above amendment to claims 54 and 83 addresses the issues on pages 2-3 of the office action. No new matter has been added. Entry and allowance are requested.

Claims 2-95 are patentable under 35 U.S.C. 103(a) over Reedy et al. (US Patent 5,966,746) and Wiener et al. (US PUB. 2004/0011363).

As pointed out at the Interview, Wiener and Reedy cannot be combined in the manner proposed by the Examiner because their teachings are mutually contradictory and because there is no teaching, suggestion or motivation within the references to combine the two teachings.

The Examiner agreed that the two references cannot be combined. See the Interview Summary attachment in which the Examiner concedes that the references cannot be combined.

Therefore the only rejection in the office action under 35 U.S.C. 103(a) must fail. Claims 2-95 are patentable over Reedy and Wiener.

Nothing in the references, either singly or in combination, teaches or suggests the claimed features. Therefore, the references cannot anticipate nor render obvious the present

invention as claimed.

Since Applicant has presented a novel, unique and non-obvious invention, reconsideration and allowance are respectfully requested.

Respectfully,

James C. Wray, Reg. No. 22,693
